About the Coos Watershed Association – The Coos Watershed Association is a local 501(c)(3) non-profit organization formed in 1994 as a way for people with a wide range of interests to get together and discuss the “big picture” of the conditions of the Coos watershed. The Association implements restoration, monitoring, and outreach projects throughout the Coos watershed with the goal of restoring and maintaining healthy, functioning stream systems. The Association also helps individual landowners decide how to manage and restore the watershed’s natural systems.
